APPLICATION FOR ADDITIONAL CLASSIFICATION

Application Fee: \$50.00

Name of Applicant		Social Security Number
Mailing Address		Telephone Number (s)
Current Classification(s)		License Number
Name of Company	Email Address	

Any individual who wishes to obtain additional classifications must meet the minimum of four (4) years experiences for each classification applied for. Experience must be justified, in this application. All areas of this application must be completed upon submission.

Classification(s) Applying For:
--

WORK EXPERIENCE

Describe, in detail, your work experience. List the most recent experience first.

Name and Address of Employer		Telephone Number
Job Title	Period of Employment (Date to Date)	Full-Time or Part-Time

Describe your duties and responsibilities

WORK EXPERIENCE

Describe, in detail, your work experience. List the most recent experience first.

SPECIALTY CLASSIFICATIONS & DEFINITION LISTING

C-1 Acoustical Tile Contractor: A specialty contractor whose contracting business is the execution of the contracts requiring the ability to execute preparatory work necessary to bring surfaces to a condition where acoustical tile can be laid and to lay such tile by the use of adhesive or other acceptable installation media and to install metal suspension members and place acoustical materials for suspended ceilings.

C-2 Aluminum Shingle & Siding Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to install aluminum shingles and siding so that an acceptable water-tight surface is obtained.

C-3 Asphalt Paving & Surfacing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion, mix and place paving and surfacing consisting of graded mineral aggregates bonded with asphalt or bituminous materials so that a firm, smooth surface suitable for roadways, runways and parking areas is obtained.

C-4 Boiler, Hot Water Heating & Steam Fitting Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install fire-tube and water-tube power boilers and hot water heating boilers, including all fitting and piping, valves, gauges, pumps, radiators, convectors, fuel/oil tanks, fuel/oil lines, chimneys, fuels, heat insulation and all other devices, apparatus and equipment pertinent thereto.

C-5 Cabinet & Millwork Contractor: A specialty contractors whose contracting business is the execution of contracts requiring the ability to intelligently cut, surface, join and frame work and wood products into cabinets, cases, sash, doors, trim, non-bearing partition and such other mill products as are by the custom and usage accepted in the building and construction industry as cabinet and millwork. Included is the placing and finishing in buildings of such cabinet and millwork.

C-6 Carpentry Framing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently do carpentry framing. Such work to include floor framing and siding, roof framing including wood truss, roof sheathing and such other work as is by custom and usage accepted in the construction industry as carpentry framing. **This classification also includes work of the C-58 (Wood Flooring Contractor).**

C-7 Carpet Laying Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare floor surfaces to a condition where acceptable fabric floor covering can be laid thereon and to lay such covering.

C-8 Cement Concrete Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion and mix aggregates, cement and water to make acceptable concrete and to pour, place and finish same, including the placing and setting of screens and forms for driveways and sidewalks. **Excluded in this classification is the work covered by classification**

C-9 Septic Tank Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to excavate and install septic tanks in compliance with the requirements of the Department of Public Health.

C-10 Concrete Paving & Surfacing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion, mix and place paving and surfacing consisting of graded mineral aggregates bonded with cement so that a firm, smooth surface suitable for roadways, runways and parking areas is obtained.

C-11 Demolition Contractor: A specialty contractor business is the execution of contracts requiring the ability to intelligently demolish all types of buildings or structures and to remove all of such building or structure from the premises on which it was built.

C-12 Drywall Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install gypsum wallboard systems and sheathing; to tape and fill joints and indentation of wallboard with simulated acoustic or gypsum texture. **This classification does not include work performed by classification C-33 (Painting) and C-36 (Plastering) Contractors.**

C-13 Electrical Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to place, install, erect or connect any electrical wires, fixtures, appliances, apparatus, raceways or conduits and lines which transmit, transform or utilize electrical energy.

C-13A Pole & Line Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to dress, ground, and anchor and erects poles designed to carry electrical wires and to connect and string electrical wires and fixtures and apparatus to and between such poles. **C-13 (Electrical Contractor) is a pre-requisite to obtaining this classification.**

C-14 Electrical Sign Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate, install and erect electrical signs.

C-15 Electronic System Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install, maintain, repair and service electronic equipment and electronic controls for public address, intercommunication, master antenna and music distribution systems. Electronic controls include those controls in conjunction with other specialty contracting work.

C-16 Elevator Installation Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate, install and erect sheaves beams motors, sheaves, cable and wire rope, guides, cab, counter weight, doors(including sidewalk elevator doors), hydraulic systems, automatic and manual controls, signal systems, and all other devices, apparatus and equipment appurtenances for the usage and efficient installation and operation of electrical, hydraulic and manually-operated elevators.

C-17 Excavating, Grading & Trenching Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently dig, move and place earthen materials for a cut, fill, grade or trench, including the use of explosive in connection therewith.

C-18 Fencing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently assemble, fabricate and install metal fencing and gates.

C-19 Fire & Burglar Alarm Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install, maintain and require fire and burglar alarm systems.

C-20 Fire Protection Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently layout, fabricate and install approved types of fire prevention and protection systems including all mechanical apparatus, devices, piping and equipment appurtenances thereto except electrical devices, apparatus and wiring which shall be installed by specialty contractors in the classifications C-13 or C-15. The licensee shall have the ability to comply with applicable provisions of the NBFU Standards to meet all requirements of the local authorities having jurisdiction.

C-21 Floor Covering Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare floor surfaces to a condition where he can lay acceptable flooring with the use of linoleum, rubber, vinyl, cork, asphalt, plastic aluminates or such other materials as are by custom and usage in the construction industry known as composition flooring.

C-22 Glazing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently cut glass and to glaze frames, panels, sash and doors. It shall also include fabrication and installation of shower doors, tub enclosures, metal жалюзи store front metal and trim plastics, tempered glass doors including such items as frames and hardware and any allied products not stipulated above but affiliated with the glass and glazing industry.

C-23 Granite Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion and mix aggregates, cement and water and to pneumatically apply and finish the mix including the setting of ground wires and pencil rods to establish the finished surface planes.

C-24 House & Building Moving and Wrecking Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently raise and underpin buildings so that alteration, additions, repairs and new sub-structures may be built under the permanently retained portions of such building and to move or wreck buildings provided; however, that wrecking shall be limited to those buildings which could otherwise be moved in whole or not more than three sections.

C-25 Institutional & Commercial Equipment Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install laboratory equipment, food services equipment, folding and sliding partitions, stationary metal partitions, and such other equipment and materials as are by custom and usage accepted in the construction industry as institutional and commercial equipment work. **Excluded is the work done by classification C-13 (Electrical) and C-37 (Plumbing) Contractors.**

C-26 Insulation Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install any insulating media in buildings and structures for the sole purpose of temperature control.

C-27 Landscaping Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare plots of land for architectural horticulture and to provide decorative treatment and arrange gardens, lawns, shrubs, vines, bushes, trees and other decorative vegetation; construct conservatories, hot and green houses, drainage and sprinkler systems and ornamental pools, tanks, fabricate and place garden furniture, statuary and monuments in connection therewith.

C-28 Lathing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently apply wood and metal lath, or any other materials which provide a key or suction base for the support of plaster-coating; including the light gauge metal shapes for the support of metal or other fireproof lath.

C-29 Lift Slab Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently lift or lower concrete slabs or prefabricated steelwork, in a vertical dimension, into predesignated positions through the use of jacks.

C-30 Limited Home Improvement & Renovation Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently perform the carpentry work to remodel and/or to make repairs to existing building or structures and to do any other work which would be incidental and supplemental to such remodeling or repairing. This contractor shall be licensed only for contractors not exceeding Four Thousand Five Hundred Dollars (\$4,500).

C-31 Masonry Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently select, cut, and lay brick and other baked clay products, rough stone, cut and dressed stone, artificial stone and pre-cast blocks, structural glass brick or block, laid at random or in courses with or without mortar.

C-32 Ornamental Metal Contractor: A specialty contractor, whose contracting business is the execution of contracts requiring the ability to intelligently cast, cut, shape, stamp, forge, weld, braze, solder, and fabricate any metal used in the building construction industry for the architectural treatment and ornamental decoration of buildings and structures. **Excluded in this classification is the work done by classification C-44 (Sheet Metal Contractor) and C-48 (Structural Steel Contractor).**

C-33 Painting & Decorating Contractor: A specialty contracting business is the execution of contracts requiring the ability to intelligently prepare surfaces, including the taping of joints in wallboard, and to apply acceptable finishes thereon with the use of paints, varnishes, shellacs, stains, fillers, waxes and any other vehicles and materials that may be mixed and applied as finish to surfaces of buildings including texture coating and coverings.

C-34 Pest Control Contractor: A specialty contractor whose contracting business is the execution of contracts requiring a practical knowledge of the life cycles, habits and habitat of insects or pests in wood to enable him to determine where the insects or pests are and the proper method to use in ridding a building of such insects or pests. **Excluded in this classification is the work done by classification C-47 (Structural Pest Control Contractor).**

C-35 Pile Driving & Foundation Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently drive pilings of wood, concrete or steel to cut off same and prepare pilings for permanent foundations.

C-36 Plastering Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare mixtures of sand, gypsum, plaster, quicklime or hydrate lime and water, or materials to create a permanent surface coating; including coloring for same, and to apply such mixtures by use of a plasterer's trowel, brush or spray gun to any surface which offers a mechanical key for the support of such mixture, or to which such mixture will adhere by suction; and to apply lath or any other material that will provide a base for such mixture.

C-37 Plumbing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install water supply piping systems, waste water piping systems and fuel gas piping systems; within such structures and works where people or animals live, work and /or assemble.

C-38 Post Tensioning Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently apply compression to concrete structures or various components by the use of steels, bars or wires and to bring such bars or wires to proper tension after the structures or components are built or placed.

C-39 Reconditioning Concrete Pipeline Contractor: A specialty contractor business is the execution of contracts requiring the ability to intelligently recondition or restore concrete water or sewer lines through the use of manually or machine applied grout.

C-40 Refrigeration Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently construct, erect and install devices, machinery and units including Temperature insulation units, ducts, blowers, registers, humidity and thermostatic controls for the control of air temperature below fifty degrees Fahrenheit in refrigerators, refrigerator rooms and insulated refrigerator spaces.

C-41 Reinforcing Steel Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate, place and tie still reinforcing bars (rods) of any profile, perimeter or cross section, that are or may be used to reinforce concrete buildings and structures.

C-42 Roofing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare surfaces and apply a water-tight covering to such surfaces with the use of any or all of the following: asphalt, pitch, tar, felt, glass, fabric, flax, composition, shingles, roof tile, slate and such other materials that are established by use and costumed as suitable for a water-tight cover. **Included in this classification are the work performed by a C-55 (Waterproofing) contractor. Excluded in this classification is the work performed by classification C-2 (Aluminum Roofing & Siding) or C-59 (Wood Shingle & Shake) Contractors.**

C-43 Sewer, Sewage Disposal, Drain, Cement Pipe Laying Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate concrete and masonry sewers, sewage disposal, and drain structures, packaged sewer disposal plants, sewage lift stations, septic tanks and appurtenances thereto; to lay iron, steel, concrete, vitreous and non-vitreous pipe; including the excavation, grading, trenching, backfilling, paving and surfacing in connection therewith.

C-44 Sheet Metal Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently cut, shape, fabricate and install sheet metal such as cornices, flashings, gutters, ladders, rainwater downspout, pan, kitchen equipment, duct work and metal flues.

C-45 Spray Texture Coating Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare surfaces and apply acceptable texture coating finishes. **Excluded in this classification are the works performed by classification C-33 (Painting & Decorating) and C-36 (Plastering) Contractors.**

C-46 Stone Masonry Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently select, cut and dress stone, and to construct ornamental walls, veneer walls and structure walls or columns from such stones; to lay stone in such manner that an acceptable paved surface is obtained and to construct stone retaining walls with or without mortar, sufficient in strength and weight to retain the earth which it was built to retain.

C-47 Structural Pest Control Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the practical knowledge of the life cycles, habits and habitats of wood-destroying insects and household pests; the ability to destroy same and to intelligently repair any damage resulting from such insects and pests. **Included in these classifications is the work performed by classification C-34 (Pest Control) Contractor.**

C-48 Structural Steel Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate and erect structural steel shapes, bars, rods and plated of any profile, perimeter or cross-section that are or may be used as structural members for buildings and structures, including riveting, bolting, welding and rigging in connection therewith.

C-49 Swimming Pool Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to construct swimming pools with the use construction industry trades as are necessary for the construction of such pools.

C-50 Tile Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to prepare a base upon which ceramic and other tile work, including all pseudo ceramic tile products, will adhere by suction or by adhesive and to install such tiles.

C-51 Warm Air Heating, Ventilating & Air Conditioning Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate and install warm air heating and cooling systems, complete air conditioning systems, except those air conditioning systems requiring refrigeration as an integral part of the system.

C-53 Solar Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to place, install and erect apparatus for heating, water heating, air conditioning, refrigeration or other devices powered by solar energy or conversion of solar energy to electromotive forces used or to be used for specialties listed in Public Law 14-51 or these Rules & Regulations. **Pre-requisites for the classification are: C-13 (Electrical), C-37 (Plumbing), C-40 (Refrigeration) & C-51 (Warm Air Heating, Ventilating & Air Conditioning).**

C-54 Water Chlorination Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to chlorinate water lines so that tests approved by the Department of Public Health show that water in such lines meet the standard of that department and is acceptable by the Department of Public Health.

C-55 Waterproofing Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently apply felt, flax, glass, asphaltum, pitch, latex or other materials or any combination for any thereof to surfaces to prevent, hold, keep and stop water vapor from penetrating and passing such materials.

C-56 Welding Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently use gases and electrical energy or other heating media, fluxes and metal rods to cause materials to become fused or jointed together.

C-57 Well Drilling Contractor: A specialty contractor whose contracting business is the execution of contracts requiring some practical knowledge for geology, hydrology, the occurrence of water in the ground, water levels in wells; the prevention of surface and sub-surface contamination and pollution of the ground-water supply; and the ability to intelligently bore, drill, excavate, and cover ground surfaces as necessary to complete the work.

C-58 Wood Flooring Contractor: A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently law and repair wood floor and to finish such floors by sanding, filling and sealing.

C-68 Classified Specialist: A specialty contractor whose operations as such is in the performance or construction work requiring special skills and whose contracting business involves the use of specialized building trades in crafts not listed above and who meets the standards set by the board for such classification.

TEMPORARY CLASSIFICATIONS under C-68: The Contractors License Board (CLB) temporarily classifies the following list of specialist under C-68 in accordance to Part IV of the CLB Rules and Regulations.

****Above/Underground Fuel Tank Installation & Fuel Leak Monitoring:** A specialty contractor who installs and /or removes above/underground fuel storage tanks up to 20,000 gallons which have been or are to be used for dispensing gasoline, diesel fuel, waste oil or kerosene (no chemicals). This work involves the installation and/or removal of all incidental tank related piping, electrical work, including the installation of vapor probes in back fill areas of the tanks and any associated calibration work, including but not limited to the testing and adjustment of leak detection and vapor recovery equipment, such as automatic tank gauges, leak line detectors, vapor recovery lines, and in-station diagnostics. This contractor also performs work on pumps hoists, or other related equipment for facilities such as, but not limited to, service stations.

****Air Quality Control & Air Emission Tech:** Air Quality Control & Air Emission Contractor test and monitors air quality with modem instruments for the control of air pollution. This classification includes the testing of air for the protection of high pollution levels in the air. This Contractor must be certified with the proper local and or federal governments.

****Algae Removal:** Algae Removal Contractor uses approved chemicals and other equipment to safely remove algae from but not limited to pools, ponds, tanks and other areas where algae may grow, including the maintenance and prevention of algae growth.

****Asbestos Abatement or Removal:** Asbestos Abatement or Removal Contractor engages in any activity involving the enclosure, removal encapsulation, renovation, repair, demolition, or other disturbances of asbestos or asbestos-containing material that may become friable. The Contractor must follow any/all local and or federal government laws regarding Asbestos Abatement or Removal.

****Cathodic Protection:** Cathodic Protection Contractor performs the work of controlling the corrosion of a metal surface by plating it with another, more corrosive metal, the more corrosive metal surface the cathode of an electrochemical cell. This method is used to protect metal structures from corrosion.

****Crane/Crane Lifting/Rental:** Crane/Crane Lifting/Rental Contractor uses a crane to raise, lower, cribs, underpins and moves or removes structures, including the foundations, classification also allows the contractor to rent the crane.

****Epoxy Coating/Injection:** Epoxy Coating/Injection Contractor prepares concrete for the application of epoxy coating/epoxy injection.

****Garage Door Installation (Doors and Windows Shutters):** Garage Door Installation Contractor installs, services, repairs and maintains all types of residential, commercial or industrial mechanical, overhead and sliding garage doors, including installation of window shutters which involves similar installation methods.

****Generator Maintenance, Generator & Shelter Installation:** Generator Maintenance, Generator Shelter Installation Contractor installs, services, repairs and maintains all types of residential, commercial or industrial generators. This classification does not include construction of buildings for the shelter of the generators.

****Guard Railing (Now under C-18 Fencing and Guard Railing):** Fencing and Guard Railing Contractor assembles, fabricates, installs, services, repairs and maintains metal fencing, gates, hand rails and guard rails.

****Horizontal Directional Drilling:** Horizontal Directional Drilling Contractor does sub-surface trenchless drilling for the installation of underground utilities.

****Lead/Lead Base Paint /Abatement/Removal:** Lead / Lead Base Paint / Abatement / Removal Contractor test for possible lead / lead base paint contamination. More than one test may be required to ensure accuracy. Once the extent of contamination has been established, the contractor should determine the best method of abatement and all abatement alternatives should be considered. This contractor must follow any/all local and or federal government laws regarding Lead/Lead Base Paint-Abatement/Removal.

****Leak Detection:** Leak Detection Contractor uses special equipment to find, indicate and locate leaks in water and fuel lines.

****Mold Remediation:** Mold Remediation Contractor identifies the extent of the mold hazard in a structure. Then removes or cleans contaminated materials in a way that prevents the emission of fungi and dust contaminated with fungi from leaving a work area and entering an occupied or non-abatement area, while protecting the health of workers performing the abatement, including the maintenance and prevention of mold from reoccurring.

****Ordnance Logistics Services:** Ordnance is defined as military material such as combat weapons of all kinds with armament – guns, ammunition and all equipment needed to control, operate and support the weapons. An ordnance logistics services contractor performs condition inspections, certifications, storage, inventory, segregation, packaging, surface transportation and loading/off-loading to/from vessels/aircraft of ordnance material or other associated material. Handling operations of these materials include the use of various industrial type equipment to include but not limited to mobile cranes, tractors, trailers, fork trucks, top loaders, etc. All personnel directly involved in these operations must be qualified and certified through an explosive safety program and must adhere to all federal and local requirements and regulations.

****Painting & Road Marking:** Painting & Road Marking Contractor prepares, but not limited to roadways, runways, driveways and parking areas for paint parking stripes, highway stripes or play court lines and install epoxy buttons or white dome dividers on highway.

****Pipe Fitting:** Pipe Fitting Contractor prepares, cut, fabricates and assemble pipe.

****Rock Crushing / Blasting:** Rock Crushing/Blasting Contractor prepares earthen material for crushing and performing blasting work.

****Sand / Water Blasting:** Sand/Water Blasting Contractor uses the force of compressed air in conjunction with abrasive materials or water to clean or prepare surfaces for any protective, decorative and/or functional treatment.

****Shutter/Typhoon Shutters & Blinds Installation (Shutter/Typhoon Shutter And Window Covering):** Shutter / Typhoon Shutters & Blinds Installation Contractor fabricates, maintains, repairs and installs decorative architectural functional window/glass or door covering products for the protection against typhoon force winds and criminal intrusion products, including but not limited to the following types of materials and fabrics that make up louvers, shutters, typhoon shutters, venetian and mini blinds. Residential or commercial draperies, expanded metal, aluminum accordion and panel type, window and door shutter/typhoon shutters.

****Sign / Sign Installation:** Sign / sign Installation contractor fabricates, maintains, repairs and installs all types of nonelectrical signs, including but not limited to post or pole support signs, signs attached to structures, painted wall signs and modifications to existing signs.

****Solar Power Systems:** Solar Power Systems Contractor assembles and installs photovoltaic panels, batteries, control and related low voltage D.C. wiring.

****Solar Energy Systems:** Solar Energy Systems Contractor assembles, installs, maintains and repairs solar hot water systems in residential and commercial buildings and swimming pools, provided that this shall not include the installation of heat pumps or water heaters. To install all solar heating and cooling systems in residential, commercial and industrial buildings.

****Solar Hot Water Systems:** Solar Hot Water Systems Contractor assembles, installs, maintains and repairs collectors, storage vessels, controls, pumps and piping in connection therewith.

****Solar Heating and Cooling Systems:** Solar Heating and Cooling Systems Contractor installs, maintains and repairs solar heating and cooling systems; provided that all specialty work requiring a license is subcontracted to contractors licensed to perform that work.

****Telecommunications:** A Communications/Telecommunications Contractor installs, services, repairs and maintains all types of communication. These systems include, but are not limited to telephone systems, sound systems, cable television systems, closed-circuit video systems, satellite dish antennas, computer repair, computer networking and data systems including the associated cabling, wiring, or fiber optics.

****Traffic Lights:** Traffic Lights Contractor installs, services, maintains and repairs, traffic lights and lights for pedestrian traffic. This contractor must follow any/all local laws regarding Traffic Lights. **A, C13-Electrical Contractor & C13A Pole and Line Contractor classifications are prerequisites to obtaining this classification.**

****Water Tanks:** Water Tank Contractor installs, maintains and repairs water storage tanks for the purpose of residential, commercial, agricultural and other related uses. Potable water tanks must meet National Sanitation Foundation (NSF) requirements for safe storage of drinking water. **Electrical work if necessary must be done by specialty contractors in the classification C-13 Electrical Contractor. Plumbing work if necessary must be done by specialty contractors in the classification C-37 Plumbing Contractor.**

****Miscellaneous Retail Products:** Miscellaneous Retail Products Contractors enters into contracts to install miscellaneous retail products sold by the licensee; provided that the installation work shall be subcontracted to and physically performed by appropriately licensed contractors. The licensee shall operate as a retailer at a fixed location; file a \$50,000 surety bonds with the board; provide in-house financing; inform consumers that they do not physically perform the installation work and state that in all advertising; and be primarily responsible and liable for the actions of the other contractors performing the installation work. All Licensee Contractors must be licensed with the proper classifications.

****Prefabricated Steel Building:** Prefabricated Steel Building Contractor installs, maintains, and repairs, prefabricated steel buildings for but not limited to commercial, agricultural, industrial and residential use. The structure must meet all local government building codes. **B-General Building Contractor classification is a prerequisite to obtaining this classification.**
