Application & Information Packet to obtain a Contractors License

When submitting application: Please follow page 5.

WHO NEEDS A CONTRACTORS LICENSE?

Any person who undertakes to construct, alter, repair, add to, subtract from, improve, move, wreck or demolish any building, highway, road, railroad, excavation or other structure, project development or improvement or do any part thereof, including therewith for another person for a fee is considered a contractor, and is required by **21 GCA REAL PROPERTY CH. 70 CONTRACTORS** to obtain a Contractors Licenses.

WHO DOESN'T NEED A CONTRACTOR'S LICENSE?

1. An officer or employee of the United States, the Territory or political subdivision, if the project or operation is performed by employees thereof;
2. Any person acting as a receiver, trustee in bankruptcy, administrator or executor, or any other person acting under any order or authorization of any court;
3. A person who sells or installs any finished products, materials or articles or merchandise which are not actually fabricated into and do not become a permanent fixed part of the structure, or to the construction, alteration, improvement or repair of personal property;
4. Any project or operation for which the aggregate contract price for labor, materials and all other items is less than Two Thousand Five Hundred Dollars (\$2,500). This exemption shall not apply in any case wherein the undertaking is only part of a larger or major project or operation, whether undertaken by the same or a different contractor or in which a division of the project or operation is made in contracts of amounts less than Two Thousand Five Hundred Dollars (\$2500) for the purpose of evading this Chapter or otherwise;
5. A registered architect or professional engineer acting solely in his professional capacity;
6. Any person who engages in the activities herein regulated as an employee with wages as his sole compensation;
7. A project or operation performed by the owner with his immediate family (son, daughter, wife, husband) or regular employees (normal year round employees not hired for the construction project), for his own personal needs (not to be sold or rented) on his own premises. Otherwise such project or operation shall be deemed performed by a contractor.
8. Any co-partnership or joint venture if all members thereof hold licenses issued under this Chapter or if the person or persons who have direct management of the contracting business thereof hold a license.

TYPES OF LICENSES

RME (Responsible Management Employee)

The title “RME” is just what the name implies. The RME is the individual responsible for the direct management of the contracting business of the licensee. It is his/her responsibility to have:

1. General supervision of the construction projects undertaken by the licensee;
2. Control of technical and administrative decisions, personnel management;
3. Review of construction contracts and enforcing compliance with all laws and regulations affecting the contracting business;
4. A bona fide employee principally employed by the licensee. However, an individual may be a RME for a maximum of three (3) companies must pay for each RME license;
5. Familiarity with all projects the firm undertakes and is responsible for enforcement of record keeping of such projects;
6. In residence in the Laws of Guam during the period in which the license is in effect or during the period a project is under construction;
7. The RME must have at least four (4) years background and experience in construction and successfully pass the required testing and clearances.

SOLE PROPRIETOR

A Sole Proprietor is an individual who owns his/her own business. If the individual applies for examination and passes the necessary examinations and obtains the necessary clearances, the individual could then apply for a license as a sole proprietor and is considered his/her own RME.

PARTNERSHIP

A Partnership is a company owned by 2 or 3 people. In order for the partnership to obtain a license to operate as a contractor, it must first qualify or hire a RME. Any of the owners may apply for examination to be the RME of the partnership; however, only 1 individual is required. All partnerships must be registered with the Department of Revenue and Taxation and a copy of the partnership agreement must be filed with our office.

CORPORATION

A Corporation is a legal entity separate from the people who own it and it requires special documentation to be licensed. Like the Partnership, the Corporation must first qualify or hire an RME in order to obtain a license to operate as a contractor. Shareholders and/ or Officers of the corporation may apply for examination to be the RME; however, only 1 is required. All corporations must be registered with the Department of Revenue and Taxation and copy of the Articles, By-Laws and Certificate of Corporation must be filed with our office.

IMPROVEMENT AND RENOVATION SALESMAN

A Home Improvement and Renovation Salesman mean an individual who, as a representative of a home improvement and renovation contractor, solicits for or negotiates a home improvement contract. Any individual representing more than one principal or acting on his own behalf as a home improvement and renovation salesman shall be treated for all purposes hereunder as a contractor and shall be required to hold a proper license.

CONSTRUCTION CLASSIFICATIONS

1. GENERAL ENGINEERING

A General Engineering contractor is a contractor whose principal contracting business is in connection with fixed works requiring specialized knowledge and skill including but not limited to the following: irrigation, drainage, water power, water supply, flood control, harbors, docks and wharves, airports, sewers and sewage disposal plants and systems, bridges, highways. Pipelines and other systems for the transmission of petroleum and other liquid or gaseous substances, parks, recreational works, refineries, chemical plants and similar industrial plants, paving and surfacing work, and other like construction.

2. GENERAL BUILDING

A General Building contractor is a contractor whose principal contracting business is in connection with any structure built, being built or to be built for the support, shelter and enclosure of persons, animals, chattels or movable property of any kind requiring in its construction the use of unrelated building trades or crafts or to do or superintend the whole or any part thereof.

3. SPECIALTY CONTRACTOR

A Specialty Contractor is a contractor whose operations as such are the performance of construction work requiring special skills and whose principal contracting business involves the use of specialized building trades or crafts or licensing to meet safety standards. There are a total of 72 Specialty Classifications. (See page of application for listing and definition).

When submitting application: The application and all documents on this page & must be original.

STANDARD REQUIREMENTS

- Every individual applicant must have had, within the past ten (10) years immediately preceding the filing of an application, not less than four (4) years' experience as a foreman, supervising employee or contractor in the particular field of contracting in which the applicant intends to enlarge as a contractor. Corporations, Partnerships, and Joint Venture must qualify through a Responsible Management Employee who meets these experience requirements.
- The Board in its discretion may approve certain technical training or business administration training as acceptable experience, but in no case will such training count as more than one (1) year experience.
- The Board in its discretion, may accept any reasonably equivalent knowledge, training or experience of the applicant in lieu of a specific experience requirement if, upon investigation, it makes a detailed finding to that effect.
- Any individual who wishes to obtain a Guam Contractors License must complete an "Application for Examination" (form attached) and meet, or have the following:
 1. Within the last 10 years, 4 years practical experience in the classification for which they are applying for. You may be able to use technical, or apprenticeship training, or education in lieu of a portion of the practical experience requirements.
 2. Each applicant must submit 3 "Certificates in Support of Examinee's Experience Qualification" (forms are attached) from persons who have known the applicant and can acknowledge the applicant's skills in the classifications(s) applied for. **(Need Originals)**
 3. Each applicant must submit sworn statements from 2 persons who have knowledge of the applicant's good reputation for honesty, truthfulness and fair dealings. **(Need Originals)**
 4. Each applicant must submit a financial statement. **(Need Originals)**
 5. Each applicant must be at least 18 years of age.
 6. Proof of citizenship. U.S. Citizenship or Permanent Resident Citizen. **(Must See Original)**
 7. Proof of Financial solvency – Bank letter of credit attesting to solvency or monthly statement from the bank (must have an amount). **(Need Original)**

Upon completion of the application and submittal of the above requirements, the applicant will be required to pay the application fee of \$50.00 in order to be scheduled for examination in the

classification(s) applied for. (Example: Applied for C13 (Electrical) you will pay \$50.00 for Law & \$50.00 for C13 which is a total of \$100.00 for testing only).

TESTING

The examination is taken in two Parts. Part I will cover the general law, as applied to construction, i.e. workers compensation, fair labor standards, wage and hour and OSHA. Part II will cover the trade or classification(s) applied for. Every individual who wishes to obtain a contractors license is required to pass both parts of the examination.

Testing is conducted on the 2nd and 4th Tuesday of the month. You will be scheduled for an interview after reviewing your application, then scheduled for an examination upon payment of the application fee. *Should you miss your scheduled examination date without giving prior notice to our office, the board may reject your application.*

- Part I study guides are available for purchase.
- Part II study guides may be provided after interviewing process.

In order to attain a passing grade, you must score at least 75% or higher in each examination administered.

AFTER YOU PASS THE TEST.....

Once you pass the examination, you will be required to complete an application for your license. This is the time when you must decide on the type of license you want. (Sole Proprietor, Partnership or Corporation).

SOLE PROPRIETORS are required to complete an application for license and obtain clearances from the following agencies:

Department of Revenue and Taxation: Four (4) sections must clear your application. They include Business License Branch, Gross Receipts Tax Branch, Income Tax Assistance Branch and the Collection Branch.

Department of Labor: Five (5) sections must clear your application. They include Workers' Compensation Section, Wage and Hour, Bureau of Labor Statistics Section, Alien Labor Processing & Cert. Div. (ALPCD) and OSHA Section.

Department of Land Management: Only one (1) clearance is required from this agency. The “Zone Clearance” form, which is attached to the application, must be completed in order to obtain clearance. In addition, it is advisable to bring with you proof of ownership of the lot(s) that you will be using or written authorization from the owner of the lot(s).

Department of Public Works: Clearance from this agency is obtained from the Building Permits Section.

Department of Public Health: You will be required to obtain clearance from this agency if you have alien labor in your work force. The purpose of this clearance is to ensure that the housing provided by your company meets the minimum requirements.

- **Peals Board:** Clearance from this agency must be obtained if you have the classification “A”.

PARTNERSHIPS are also required to complete an application for license, which must be signed by all partners, and obtain clearances from the same agencies as Sole Proprietors. In addition, they are required to provide the following documents:

- Proof of Workers’ Compensation;
- Verification of account from each partner’s financial institute; Proof of financial solvency – Bank letter of credit attesting to solvency or financial statement from the bank.
- A letter to the Contractors License Board appointing the RME, with the RME’s acceptance of appointment; and
- A copy of the partnership agreement filed with the Department of Revenue and Taxation.

CORPORATIONS like Sole Proprietors and Partnerships, are also required to complete an application for license, which must be signed by 2/3 of the officers, and obtain clearances from the same agencies. Additional documents that need to be submitted are:

- Proof of Workers’ Compensation;
- A copy of the Corporation’s Articles, By-Laws and Certificate of Corporation;
- A letter to the Contractors License Board appointing the RME, with the RME’s acceptance of appointment;
- A copy of the Treasurer’s Statement as submitted to the Department of Revenue and Taxation.
- Proof of financial solvency – Bank letter of credit attesting to solvency or financial statement from the bank.

In addition to the above requirements, all applications for license must be accompanied by a copy of the construction contract that the company will use. This contract shall provide a clear statement of the following:

- A. Amount of contract
- B. Date work is to commence and number of days for completion
- C. Work to be performed and materials to be used
- D. Approximate percentage of work to be sub-contracted
- E. Must provide a clear statement of the risk of loss of any payments made to a salesman.

WHAT HAPPENS NEXT???

Now that you have passed the examination(s), obtained all the clearances, and submitted all the necessary documents, our office will verify all references and ensure that everything is in order. This process includes the Licensing and Investigation Sections of our Agency reviewing your documents. Once our office has done the review, your application will be forwarded to the board of Directors for final approval.

Based on **21 GCA REAL PROPERTY CH. 70 CONTRACTORS, § 70115**, the Board shall conduct an investigation on all applications and either issue a license or provide written notification to the applicant stating the reason(s) for denying a license within forty-five (45) working days after the application is filed.

LICENSE FEES AND EXPIRATION DATES

Once your application is approved by the board of Directors, you will be notified on the amount of your license fee. Fees are pro-rated for new licenses as follows:

First Quarter (July to September)	\$400.00
Second Quarter (October to December)	\$300.00
Third Quarter (January to March)	\$200.00
Fourth Quarter (April to June)	\$100.00

All licenses expire on June 30 of each year and must be renewed on or before to avoid forfeiture of the license. Should a licensee fail to renew on or before the expiration date, he/she may be required by the board to resubmit an application for re-examination.

SPECIALTY CLASSIFICATIONS & DEFINITION LISTING

- C-1 Acoustical Tile Contractor:** A specialty contractor whose contracting business is the execution of the contracts requiring the ability to execute preparatory work necessary to bring surfaces to a condition where acoustical tile can be laid and to lay such tile by the use of adhesive or other acceptable installation media and to install metal suspension members and place acoustical materials for suspended ceilings.
- C-2 Aluminum Shingle & Siding Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to install aluminum shingles and siding so that an acceptable watertight surface is obtained.
- C-3 Asphalt Paving & Surfacing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion, mix and place paving and surfacing consisting of graded mineral aggregates bonded with asphalt or bituminous materials so that a firm, smooth surface suitable for roadways, runways and parking areas is obtained.
- C-4 Boiler, Hot Water Heating & Steam Fitting Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install fire-tube and water-tube power boilers and hot water heating boilers, including all fitting and piping, valves, gauges, pumps, radiators, convectors, fuel/oil tanks, fuel/oil lines, chimneys, fuels, heat insulation and all other devices, apparatus and equipment pertinent thereto.
- C-5 Cabinet & Millwork Contractor:** A specialty contractors whose contracting business is the execution of contracts requiring the ability to intelligently cut, surface, join and frame wood and wood products into cabinets, cases, sash, doors, trim, non-bearing partition and such other mill products as are by custom and usage accepted in the building and construction industry as cabinet and millwork. Included is the placing and finishing in buildings of such cabinet and millwork.
- C-6 Carpentry Framing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently do carpentry framing. Such work to include floor framing and siding, roof framing including wood truss, roof sheathing and such other work as is by custom and usage accepted in the construction industry as carpentry framing. This classification also includes work of the C-58 (Wood Flooring contractor).
- C-7 Carpet Laying Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare floor surfaces to a condition where acceptable fabric floor covering can be laid thereon and to lay such covering.
- C-8 Cement Concrete Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion and mix aggregates, cement and water to make acceptable concrete and to pour, place and finish the same, including the placing and setting of screens and forms for driveways and sidewalks. Excluded in this classification is the work covered by classification C-3 (Asphalt, Paving & Surfacing Contractor)
- C-9 Septic Tank Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to excavate and install septic tanks in compliance with the requirements of the Department of Public Health, Guam Environmental Protection Agency, and

any other local Guam or federal government agencies. **Individuals holding a C-43 classification license may also perform work under this classification.**

- C-10 Concrete Paving & Surfacing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion, mix and place paving and surfacing consisting of graded mineral aggregates bonded with cement so that a firm, smooth surface suitable for roadways, runways and parking areas is obtained.
- C-11 Demolition Contractor:** A specialty contractor business is the execution of contracts requiring the ability to intelligently demolish all types of buildings or structures and to remove all of such buildings or structures from the premises on which it was built.
- C-12 Drywall Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install cement board, gypsum wallboard systems and sheathing; to tape and fill joints and indentation of wallboard with simulated acoustic or gypsum texture. This classification does not include work performed by classification C-33 (Painting) and C-36 (Plastering) contractors.
- C-13 Electrical Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to place, install, erect or connect any electrical wires, fixtures, appliances, apparatus, generators, raceways or conduits and lines which transmit, transform or utilize electrical energy, including repair and maintenance.
- C-13A Electrical Pole & Line Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to dress, ground, anchor and erects poles designed to carry high voltage and/or high distribution of electrical wiring, and to connect and string electrical wires and fixtures and apparatus to and between such poles. A C-13 (Electrical Contractor) is a prerequisite to obtaining this classification.
- C-14 Electrical Sign Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate, install and erect electrical signs. Includes the maintenance of electrical signs.
- C-15 Electronic System Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install, maintain, repair and service electronic equipment and electronic controls for public address, intercommunication, master antenna and music distribution systems. Electronic controls include those controls in conjunction with other specialty contracting work.
- C-16 Elevator Installation Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate, install and erect sheaves beams motors, sheaves, cable and wire rope, guides, cab, counter weight, doors (including sidewalk elevator doors), hydraulic systems, automatic and manual controls, signal systems, and all other devices, apparatus and equipment appurtenances for the usage and efficient installation and operation of electrical, hydraulic and manually-operated elevators.
- C-17 Excavating, Grading & Trenching Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently dig, move and place earthen materials for a cut, fill, grade or trench, including stockpiling of materials.

- C-18 Fencing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently assemble, fabricate, install, alter, or repair metal fencing, gates, guard rails, and concrete fencing.
- C-19 Fire & Burglar Alarm Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install, maintain and require fire and burglar alarm systems.
- C-20 Fire Protection Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently layout, fabricate and install approved types of fire prevention and protection systems including all mechanical apparatus, devices, piping and equipment appurtenances thereto except electrical devices, apparatus and wiring which shall be installed by specialty contractors in the classifications C-13 or C-15. The licensee shall have the ability to comply with applicable provisions of the National Electrical Code to meet all requirements of any authorities having jurisdiction.
- C-21 Floor Covering Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare floor surfaces to a condition where he can lay acceptable flooring with the use of linoleum, rubber, vinyl, cork, asphalt, plastic aluminates or such other materials as are by custom and usage in the construction industry known as composition flooring.
- C-22 Glazing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently cut glass and to glaze frames, panels, sash and doors. It shall also include fabrication and installation of shower doors, tub enclosures, metal жалousies, store front metal and trim plastics, tempered glass doors including such items as frames and hardware and any allied products not stipulated above but affiliated with the glass and glazing industry.
- C-23 Guniting Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently proportion and mix aggregates, cement and water and to pneumatically apply and finish the mix including the setting of ground wires and pencil rods to establish the finished surface planes.
- C-24 House & Building Moving and Wrecking Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently raise and underpin buildings so that alteration, additions, repairs and new sub-structures may be built under the permanently retained portions of such building and to move or wreck buildings provided; however, that wrecking shall be limited to those buildings which could otherwise be moved in whole or not more than three sections.
- C-25 Institutional & Commercial Equipment Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install laboratory equipment, food services equipment, folding and sliding partitions, stationary metal partitions, and such other equipment and materials as are by custom and usage accepted in the construction industry as institutional and commercial equipment work. Excluded is the work done by classification C-13 (Electrical) and C-37 (Plumbing) Contractors.

- C-26 Insulation Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install any insulating media in buildings and structures for the sole purpose of temperature control.
- C-27 Landscaping Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare plots of land for architectural horticulture and to provide decorative treatment and arrange gardens, lawns, shrubs, vines, bushes, trees and other decorative vegetation; construct conservatories, hot and greenhouses, drainage and sprinkler systems and ornamental pools, tanks, and to fabricate and place garden furniture, statuary and monuments in connection therewith.
- C-28 Lathing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently apply wood and metal lath, or any other materials which provide a key or suction base for the support of plaster-coating; including the light gauge metal shapes for the support of metal or other fireproof lath.
- C-29 Lift Slab Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently lift or lower concrete slabs or pre-fabricated steelwork, in a vertical dimension, into predesignated positions through the use of jacks.
- C-30 Limited Home Improvement & Renovation Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently perform the carpentry work to remodel and/or to make repairs to existing building or structures and to do any other work which would be incidental and supplemental to such remodeling or repairing. This contractor shall be licensed only for contracts not exceeding thirty thousand dollars (\$30,000.00).
- C-31 Masonry Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently select, cut, and lay brick and other baked clay products, rough stone, cut and dressed stone, artificial stone and precast blocks, structural glass brick or block, laid at random or in courses with or without mortar.
- C-32 Ornamental Metal Contractor:** A specialty contractor, whose contracting business is the execution of contracts requiring the ability to intelligently cast, cut, shape, stamp, forge, weld, braze, solder, and fabricate any metal used in the building construction industry for the architectural treatment and ornamental decoration of buildings and structures. Excluded in this classification is the work done by classification C-44 (Sheet Metal Contractor) and C-48 (Structural Steel Contractor).
- C-33 Painting & Decorating Contractor:** A specialty contracting business is the execution of contracts requiring the ability to intelligently prepare surfaces, including the taping of joints in wallboard, and to apply acceptable finishes thereon with the use of paints, varnishes, stains, fillers, waxes and any other vehicles and materials that may be mixed and applied as finish to surfaces of buildings including texture coating and coverings. This includes lead based paint removal & abatement.
- C-34 Pest Control Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring a practical knowledge of the life cycles, habits and habitat of insects or pests in wood to enable them to determine where the insects or pests are and the proper method to use in ridding a building of such insects or pests. Excluded in this classification is the work done by

classification C-47 (Structural Pest Control Contractor).

- C-35 Pile Driving & Foundation Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently drive pilings of wood, concrete or steel to cut off the same and prepare pilings for permanent foundations.
- C-36 Plastering Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare mixtures of sand, gypsum, plaster, quicklime or hydrated lime and water, or materials to create a permanent surface coating; including coloring for same, and to apply such mixtures by use of a plasterer's trowel, brush or spray gun to any surface which offers a mechanical key for the support of such mixture, or to which such mixture will adhere by suction; and to apply lath or any other material that will provide a base for such mixture.
- C-37 Plumbing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently install water supply piping systems, waste water piping systems within such structures and works where people or animals live, work and/or assemble. Includes tapping into water lines and leak detection to indicate any leaks in water lines.
- C-38 Post Tensioning/Pre-stress Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently apply compression to concrete structures or various components by the use of steel bars or wires and to bring such bars or wires to proper tension after the structures or components are built or placed. To include prestressed concrete methods.
- C-39 Reconditioning Concrete Pipeline Contractor:** A specialty contractor business is the execution of contracts requiring the ability to intelligently recondition or restore concrete water or sewer lines through the use of manually or machine applied grout.
- C-40 Refrigeration Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently construct, erect and install devices, machinery and units including temperature insulation units, ducts, blowers, registers, humidity and thermostatic controls for the control of air temperature below fifty degrees Fahrenheit in refrigerators, refrigerator rooms and insulated refrigerator spaces.
- C-41 Reinforcing Steel Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate, place and tie steel reinforcing bars (rods) of any profile, perimeter or cross section that are or may be used to reinforce concrete buildings and structures.
- C-42 Roofing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare surfaces and apply a water-tight covering to such surfaces with the use of any or all of the following: asphalt, pitch, tar, felt, glass, flax composition, shingles, roof tile, slate and such other materials that are established by use and costumed as suitable for a water-tight cover.
- C-43 Sewer, Sewage Disposal, Drain, Cement Pipe Laying Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate concrete and masonry sewers, sewage disposal, and drain structures, packaged sewer disposal plants, sewage lift stations, septic tanks and appurtenances thereto; to lay iron, steel, concrete,

vitreous and non-vitreous pipe; including the excavation, grading, trenching, backfilling, paving and surfacing in connection therewith.

- C-44 Sheet Metal contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently cut, shape, fabricate and install sheet metal such as cornices, flashings, gutters, ladders, rainwater downspout, and, kitchen equipment, ductwork and metal flues.
- C-45 Spray texture Coating Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently prepare surfaces and apply acceptable texture coating finishes. Includes cathodic protection to protect metal structure from corrosion. Sand /Water blasting also is included.
- C-46 Stone Masonry Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently select, cut and dress stone, and to construct ornamental walls, veneer walls and structure walls or columns from such stones; to lay stone in such manner that an acceptable paved surface is obtained and to construct stone retaining walls with or without mortar, sufficient in strength and weight to retain the earth which it was built to retain.
- C-47 Structural Pest Control Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the practical knowledge of the life cycles, habits and habitats of wood-destroying insects and household pests; the ability to destroy same and to intelligently repair any damage resulting from such insects and pests. Included in these classifications is the work performed by classification C-34 (Pest Control) Contractor.
- C-48 Structural Steel Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate and erect structural steel shapes, bars, rods and plated of any profile, perimeter or cross-section that are or may be used as structural members for buildings and structures, including riveting, bolting, welding and rigging in connection therewith.
- C-49 Swimming Pool Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to construct or repair swimming pools using construction industry trades and standards as are necessary for the construction of such pools.
- C-50 Tile Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to prepare a base upon which ceramic and other tile work, including all ceramic tile products, will adhere by suction or by adhesive and to install such tiles.
- C-51 Warm Air Heating, Ventilating & Air Conditioning Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently fabricate and install warm air heating and cooling systems, complete air conditioning systems, repair and maintain air conditioning systems, except those air conditioning systems requiring refrigeration as an integral part of the system. **The C-13 Electrical Contractor classification licenses is a prerequisite to obtaining this classification.**
- C-52 Traffic Lights Contractor:** Traffic Lights Contractor installs, services, maintains and repairs, traffic lights and lights for pedestrian traffic. This contractor must follow any/all local laws regarding Traffic Lights. **The C-13 Electrical Contractor and the C13A Pole and Line Contractor**

classification licenses are prerequisites to obtaining this classification.

- C-53 Solar Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to place, install and erect apparatuses for heating, water heating, air conditioning, refrigeration or other devices powered by solar energy or conversion of solar energy to electromotive forces used or to be used for specialties listed in Public Law 14-51 as amended or these Rules & Regulations. Prerequisites for the classification are: C-13 (Electrical), C-37 (Plumbing), C-40 (refrigeration) & C-51 (Warm Air heating, Ventilating & Air conditioning). This includes installation of Photovoltaic panels, batteries, controls and related low voltage Direct Current (DC) wiring.
- C-53A Solar Power Systems Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to place, install and erect photovoltaic panels, batteries, controls and related low voltage D.C. wiring. Prerequisite for the classification is C-13 (Electrical).
- C-54 Water Chlorination Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to install, repair and maintain water machines, reverse osmosis systems and to chlorinate water lines so that tests approved by the Department of Public Health show that the water in such lines meets the standards acceptable to it. Electrical work if necessary must be done by a C-13 (Electrical) contractor. Plumbing work if necessary must be done by a C-37 contractor.
- C-55 Waterproofing Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently apply felt, flax, glass, asphalt, pitch, latex, silicon or other materials or any combination for any thereof to surfaces to prevent, hold, keep and stop water vapor from penetrating and passing such materials. This includes epoxy coating and injection.
- C-56 Welding Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently use gasses and electrical energy or other heating media, fluxes and metal rods to cause materials to become fused or jointed together.
- C-57 Well Drilling Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring some practical knowledge of geology, hydrology, the occurrence of water in the ground, water levels in wells, the prevention of surface and subsurface contamination, pollution of the ground-water supply; and the ability to intelligently bore, drill, excavate, and cover ground surfaces as necessary to complete the work. Includes testing and analyzing of soil samples in the laboratory.
- C-58 Wood Flooring Contractor:** A specialty contractor whose contracting business is the execution of contracts requiring the ability to intelligently lay and repair wood floors and to finish such floors by sanding, filling, and sealing.
- C-59 Above/Underground Fuel Tank, Gas Line Installation & Fuel/Gas Leak Monitoring Contractor:** A specialty contractor who installs and/or removes above/underground fuel storage tanks up to 20,000 gallons which have been or are to be used for dispensing gasoline, diesel fuel, waste oil or kerosene (no chemicals). This work involves the installation and/or removal of all incidental tank related piping, electrical work, including the installation of vapor probes in back fill areas of the tanks and any associated calibration work, including but not

limited to the testing and adjustment of leak detection and vapor recovery equipment, such as automatic tank gauges, leak line detectors, vapor recovery lines, and in-station diagnostics. A C-59 contractor also performs work on pumps, hoists, or other related equipment for facilities such as, but not limited to, service stations.

- C-60 Asbestos Abatement or Removal Contractor:** A specialty contractor who engages in any asbestos abatement or removal activity involving the enclosure, removal, encapsulation, renovation, repair, demolition or other disturbances of asbestos or asbestos-containing material that may become friable. This contractor shall follow all local and federal government laws regarding the abatement or removal of asbestos or asbestos-containing material.
- C-61 Communications/Telecommunications Contractor:** A specialty contractor who installs, services, repairs and maintains all types of communication and/or telecommunication systems. These systems include, but are not limited to telephone systems, sound systems, cable television systems, Closed-Circuit video systems, satellite dish antennas, computer repair, computer networking and data systems including any associated cabling, wiring, or fiber optics. Prerequisite to this classification is C-13 Electrical.
- C-62 Garage Door Installation (Doors and Windows Shutters) Contractor:** A garage door installation contractor installs, services, repairs and maintains all types of residential, commercial or industrial, mechanical, overhead and sliding garage doors, including installation of window shutters which involves similar installation methods.
- C-63 Horizontal Directional Drilling Contractor:** Horizontal Directional Drilling Contractors do sub-surface trenchless drilling for the installation of underground utilities.
- C-64 Painting & Road Marking Contractor:** A painting & road marking contractor prepares and applies, without limitation, roadways, runways, driveways, parking areas, curbs, pavements, and other areas with the appropriate painted parking stripes, highway stripes, pavement markings, or play court lines. Includes the installation of epoxy buttons or white dome dividers on highways.
- C-65 Prefabricated Steel Building Contractor:** A Prefabricated steel building contractor installs, maintains, and repairs prefabricated steel buildings for, but not limited to, commercial, agricultural, industrial and residential use. The structure must meet all local government building codes. A "B" General Building Contractor license is a prerequisite to obtaining this classification.
- C-66 Shutter/Typhoon Shutters & Blinds Installation (Shutter/Typhoon Shutter and Window Coverings) Contractor:** A Shutter/Typhoon Shutters & Blinds Installation contractor fabricates, maintains, repairs and installs decorative architectural functional window/glass or door covering products for the protection against typhoon force winds and criminal intrusion products. Including but not limited to the materials and fabrics that constitute louvers, shutters, Venetian and mini-blinds, residential or commercial draperies, and typhoon shutters, including expanded metal, aluminum, accordion, and panel-type window or door shutters/ typhoon shutters.
- C-67 Sign/Sign Installation Contractor:** A sign/sign installation contractor fabricates, maintains, repairs and installs all types of nonelectrical signs, including but not limited to, post or pole-supported signs, signs attached to structures, painted wall signs, and modifications to existing

signs.

- C-68 Water Tanks Contractor:** A water tank contractor installs, maintains and repairs water storage tanks for the purpose of residential, commercial, agricultural and other related uses. Potable water tanks must meet National Sanitation Foundation (NSF) requirements for the pipesafe storage of drinking water. Electrical work if necessary must be done by specialty contractors in the classification of C-13 Electrical Contractor. Plumbing work if necessary must be done by specialty contractors in the classification of C-36 Plumbing Contractor.
- C-69 Mold Remediation Contractor:** Mold Remediation Contractor identifies the extent of the mold hazard in a structure. Then removes or cleans contaminated materials in a way that prevents the emission of fungi and dust contaminated with fungi from leaving a work area and entering an occupied or non-abatement area, while protecting the health of workers performing the abatement. Including the maintenance and prevention of mold from reoccurring.
- C-70 Classified Specialist Contractor:** A Classified Specialist is a specialty contractor whose operation is the performance of construction work requiring special skills, and whose contracting business involves the use of specialized building trades in crafts not listed above and who meets the standards set by the Board for such classification.

(A) GENERAL ENGINEERING CONTRACTOR:

More than two (2) unrelated heavy construction trades or crafts including but not limited to the following:

Asphalt, Paving & Surfacing	Laying
Bridges, Overpasses, Underpasses	Parks, Playgrounds & other Recreational works
Cement Concrete	Pest Control
Concrete Paving & Surfacing	Pile Driving and Foundation
Classified Specialties	Power Plants
Drain, Cement, Pipe Laying	Roads, Highways, Streets
Dock and Wharves	Post Tension/Prestressed
Dams and Hydroelectric Projects	Reinforcing Steel
Demolition	Retaining Walls
Drainage	River Control and Reclamation work
Excavating, Grading & Trenching	Shipyards & Ports
Fencing	Septic Tank Sewage
Fuel Lines, Systems	Sewer, Sewage; Disposal Drain, Cement Pipe
Flood Control	Stone Masonry
Gunite	Structural Steel
House and Building, Moving and Wrecking	Water Proofing
Irrigations	Welding
Landscaping	

(B) GENERAL BUILDING CONTRACTOR:

More than two (2) unrelated heavy construction trades or crafts including but not limited to the following:

Acoustical tile	Painting & Decorating
Aluminum Shingle & Siding	Pest Control
Cabinet & Millwork	Pile Driving & Foundation
Carpentry Framing	Plastering
Carpet Laying	Plumbing
Cement Concrete	Post Tension/Prestressed
Concrete Paving & Surfacing	Prefabricated Steel Building
Demolition	Reinforcing Steel
Drywall	Roofing
Electrical	Septic Tank
Fencing	Sheet Metal
Floor Covering	Spray texture coating
Glazing	Stone masonry
Gunite	Structural Pest Control
House & Building moving & Wrecking	Structural Steel
Institutional & Commercial equipment	Swimming Pool
Insulation	Tile
Landscaping	Water Proofing
Lift Slab	Welding
Limited House Improvement &	Wood Flooring
Renovation	Wood Shingle & Shake
Masonry	Classified Specialties
Ornamental Metal	

(C) SPECIALTY CONTRACTOR

This classification shall not prohibit a specialty contractor from taking and executing a contract involving the use of two (2) or more crafts or trades, if the performance of the work is less than the thirty-five percent (35%) and supplemental to the performance of work in the craft for which the specialty contractor is licensed.
